DON'S BASIC POINTS: A review of 2015

Submitted by Anar on January 6, 2016 - 12:50pm

It has been an interesting year to say the least. A political standoff between Europe and Greece. A Chinese stock market that climbed then fell. Oil prices testing 11 year lows. The depreciation of the Canadian dollar. The Fed actually raising rates! Despite all of this, **Manulife Investments** has had another great year of performance. Below you will find the YTD numbers (as of Dec 21, 2015, F-Series) for our top selling funds.
